DAILY RENTAL

We charge a flat rate to use the machine on a daily basis. Whether it is for a music festival, corporate event, wedding, silent disco event or construction site, any business outside of a Customer can charge a fee for rentals or allow them to be free. (Charging rules and fees are customizable.)

- A 30-mile radius will be charged a travel fee.
- A security deposit is required.

EXPO OPTION-A

A small charging nest can be provided to each sponsor for a cost during the Expo. This can be à la carte or part of a sponsorship package. In the Expo application or where the list of vendors is noted, a charging icon will show beside their name, indicating participants have the ability to charge their mobile device at the identified sponsors. A promotional code will be provided during the expo if needed.

- Duke Energy 

powered by Battery Bird

EXPO OPTION-A Cont.

The benefits of this platform are:

- No Internet is required (the charging nest [kiosk] has built-in 4G cellular service).
- Noticed participants come to the boot to obtain or return a portable battery.
- Increase participants and sponsor interaction with a wireless solution.
- Provide data on how many people rented a battery from each charging nest (kiosk) to validate increased foot traffic

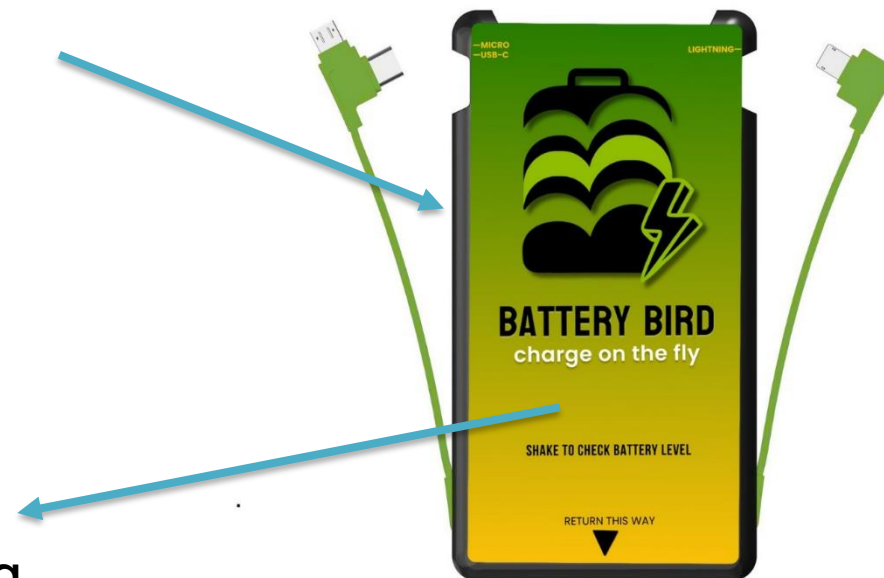

EXPO OPTION-B

Our large charging nest (kiosk) can be branded with the logo of the designated sponsor. The front and back battery graphics are customizable to any high-resolution design. The screen allows for advertising with or without audio, with a maximum file size of 20 MB and 32 GB for each charging station (kiosk).

Back Advertising

Front Advertising

Advertising for sponsors

AMENITY

- The business will provide the customers with 1 or 2 hours complimentary and receive a monthly invoice.
- Each additional hour is charged to the customer.
- The non-return fee is billed to the customer, and Battery Bird will ship replacement batteries, or the non-return fee is charged to the business, and Battery Bird will ship replacement batteries.

ADVERTISING

The benefits of this platform are:

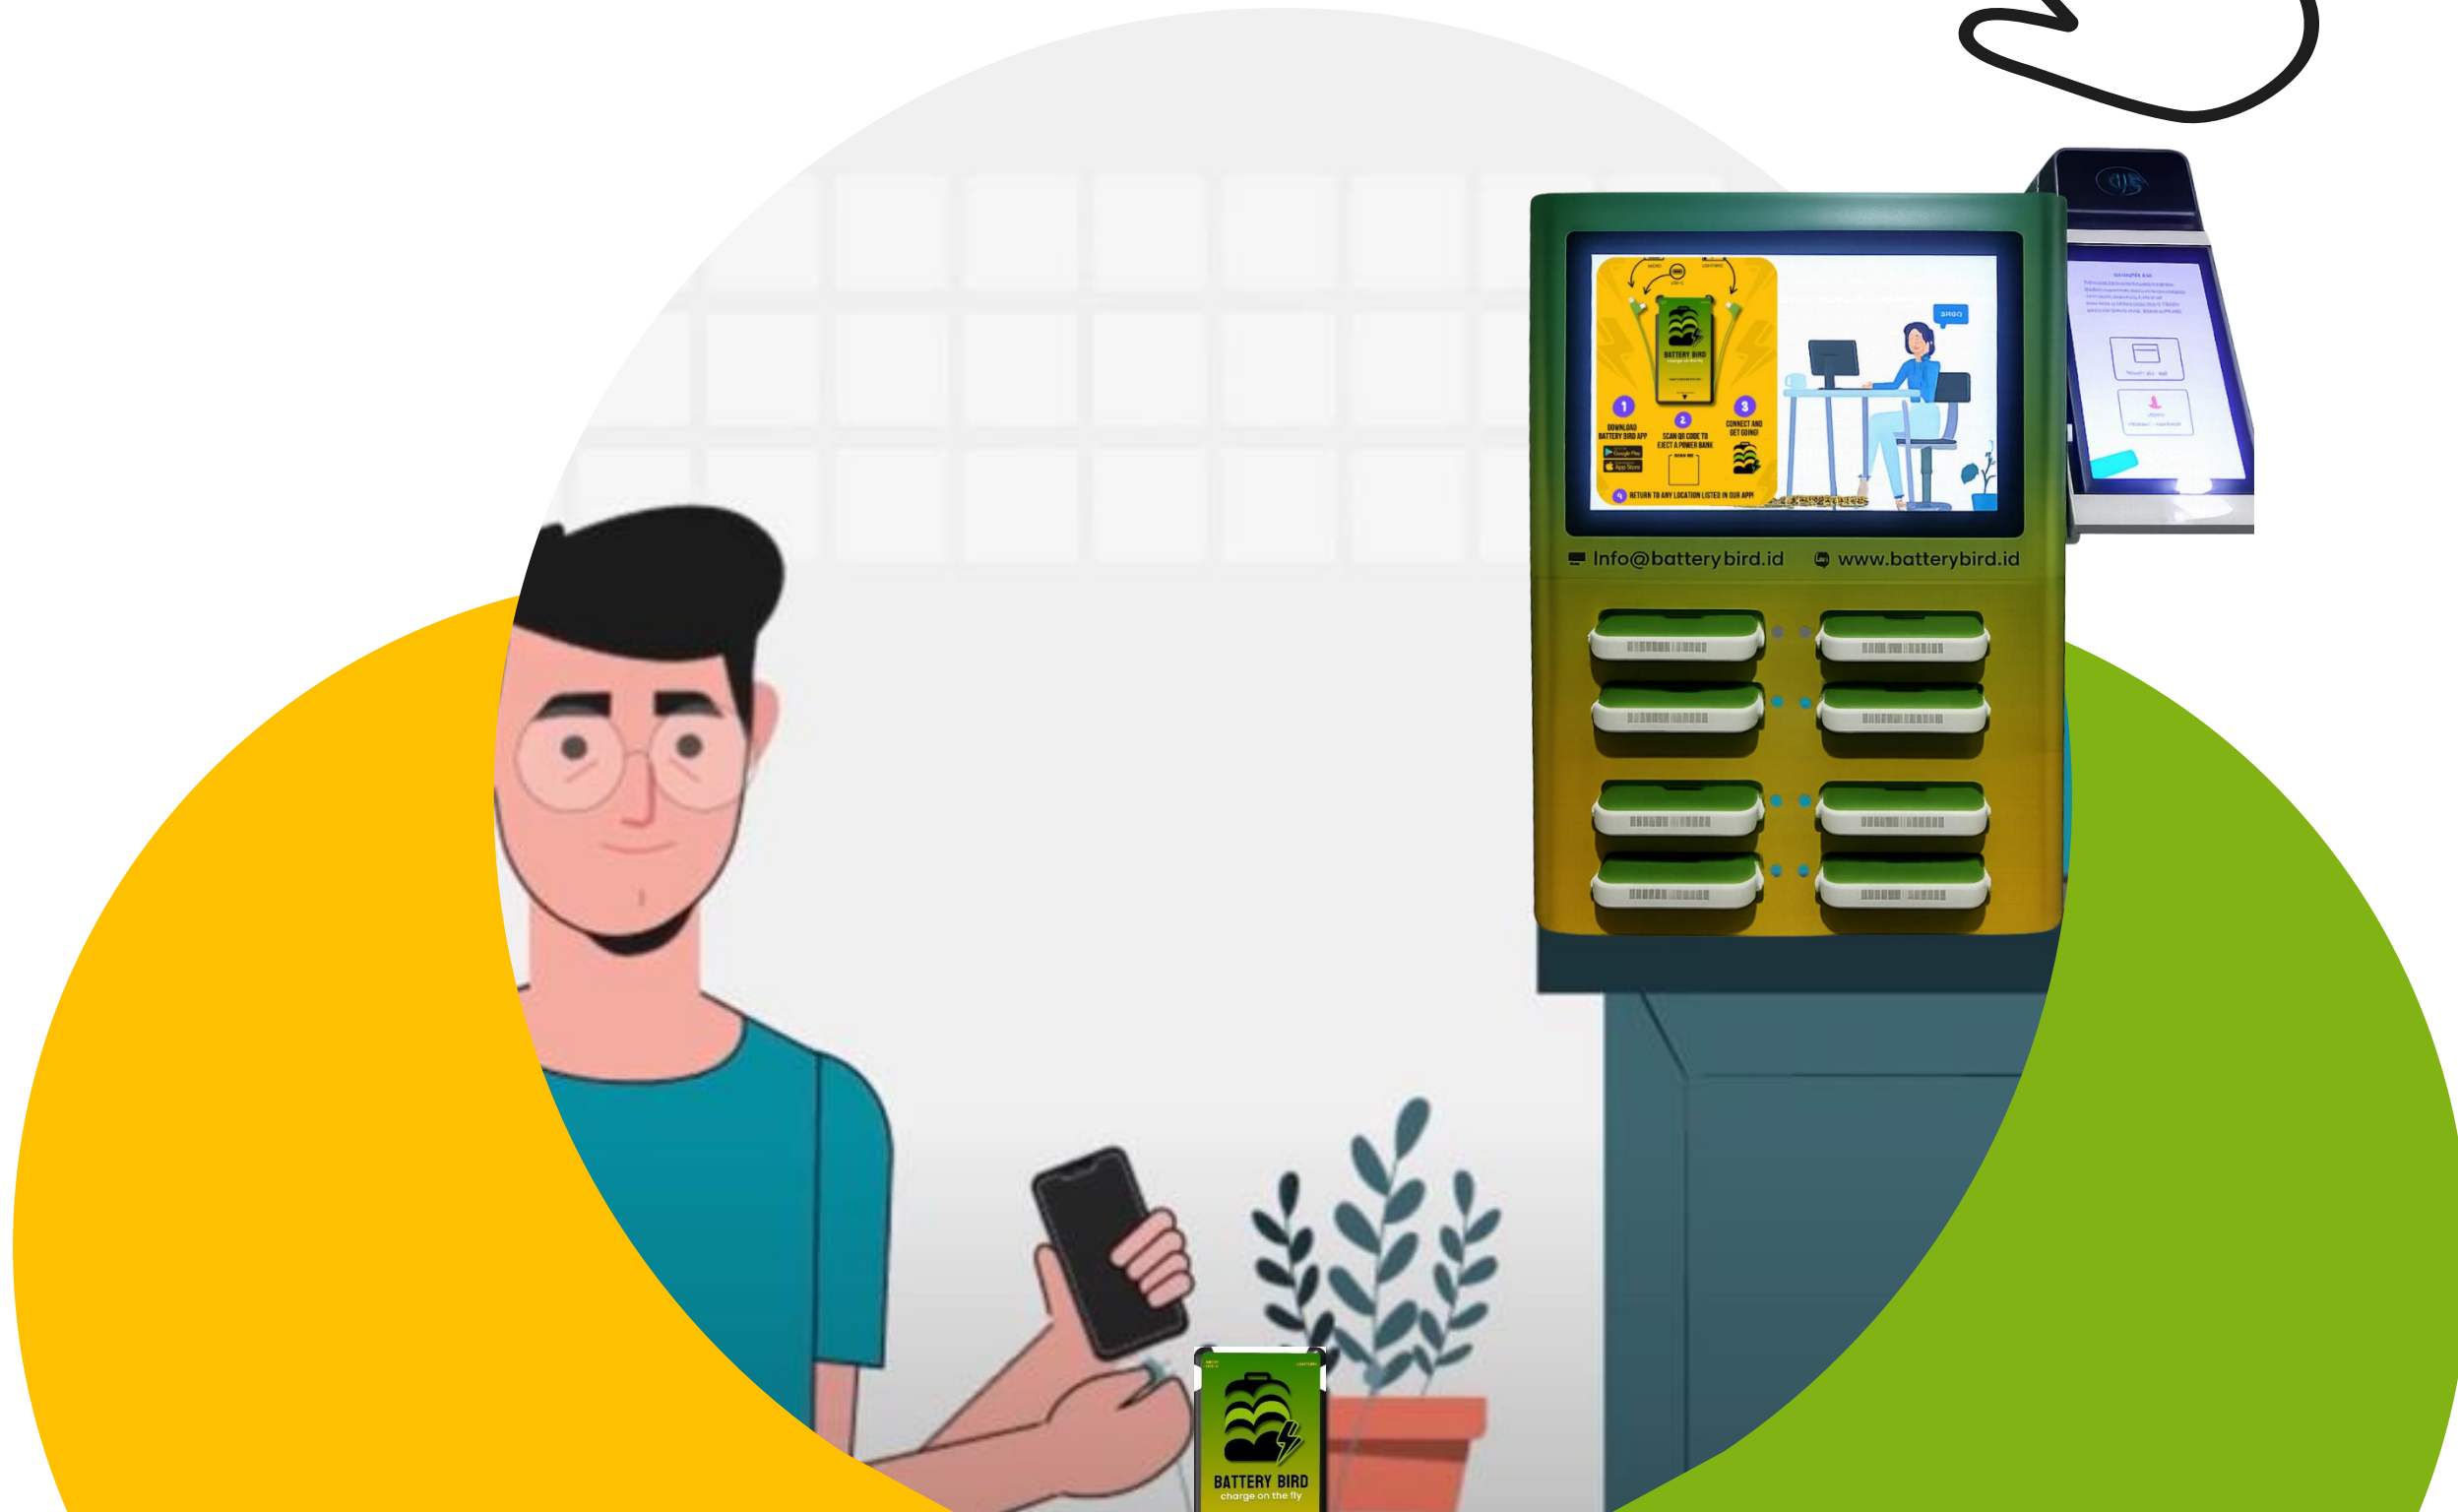

- Generating revenue by running advertising and displaying advertisements to your audience.
- By this way businesses can monetize their online presence and earn income.
- Advertising can be loaded via USB drive or wireless using (4G or WIFI).
- Our screens allow for ad files of 20 mb, which hold a maximum of 32 GB.
- The business can generate revenue by charging for advertising space and allowing Battery Bird to host for a low percentage or maintenance fee.
- Terms and agreements may vary depending on the contract.
